### STRATFORD

A Delightful Trip—Some School Matters—Church Services—A Political Sermon—A Celestial Robbery—No License—Personal Notes.

A party of towns people plan soon to take a trip up the Hudson, to Albany, then a trolley ride to Lake George, and returning to New York go to Boston by way of the Sound on the Yale or Harvard, and thence on to Old Orchard beach, in Maine, where they will close the season.

Rev. C. S. Bullock returns to Cleveland on Monday.

The Hotel Astor in New York is being fitted with the thermostat fire annunciator which was invented in this town and is now being manufactured in Bridgeport.

The School Board has made a proposition to the trustees of the Neighborhood Church looking towards renting the school room of that building for the coming school year. It will be impossible to add the new rooms to the center school ready to be occupied much before the coming of spring, and 170 children must be provided for or there will be a tremendous amount of criticism on the part of parents whose children have to remain at home. There are still some people in town who think building an addition to the center building is a great mistake, especially as the cost will be considerable, and the crowd of children already drawn to the building will be largely increased, when it is admitted that on account of the many trolleys running by the door the situation is a dangerous one.

Mrs. P. H. Troy and family are the guests of Mrs. W. H. Benjamin.

Miss Beatrice Buford, of Springfield, New York, has been visiting relatives in town, the guest of Rev. and Mrs. C. S. Bullock. She will soon return home and Miss Evelyn Bullock will go with her.

Mrs. David O'Connor, of Brooklyn, is spending a week with Mr. and Mrs. David Hughes of East Broad street.

A gentleman recently traveling between Rochester and Buffalo, met Donald Falken, of this town, who was on a business tour of north western New York.

Letters from Frederick Lewis, who went to Pittsburg, to engage in the manufacture of electrical appliances, in a large plant in that city, announce that he likes the place and is contented.

This being the off season, regular services will not be held in all the churches to-morrow. While Mr. Farrar is away a substitute preaches at the Methodist church. The Congregational church remains closed. Services will be morning prayers at Christ church, and at the Neighborhood church the subject of the sermon will be "The Mark on the Forehead." The pastor will call down some of our modern politicians who have betrayed the people. He says this state and Rhode Island are the two rottenest states, politically, in the Union. The various colored Baptist churches will be open as usual.

Considerable surprises were manifested among wise citizens when it was announced that John Sing, the Celestial who runs a laundry near the famous When restaurant, had been robbed of \$40 in the night. Few suppose there was so much money on deposit in the laundry. Up to date no sign

to the robber has been found, who is supposed to have entered the wash house through a rear window between the hours of midnight and sunrise.

Mr. Frank E. Plumb has returned from his week's automobile outing. He reports having been through a beautiful country, enjoying the trip immensely.

Now and then Mr. Samuel Pendleton comes over to town, and sells furnishings for horses and carriages. He said yesterday that the rapid increase of automobiles is knocking the harness business hard. Only harnesses for farm horses are called for now.

Mr. George T. Jewell has got a new gold and black sign over his market. People can be seen looking at it and wondering how many pennyweights of 14 carat gold it took.

One Oppenheim, driving through town with a load of junk, employed by one Jacobs, of Bridgeport, was held up on Thursday by the sheriff, as there was no license on the cart. After Mr. Jacobs came over and explained matters, the load of junk was permitted to proceed to its destination.

Rev. Mr. Abbott is back in town after a visit to several places in the interior.

John F. Colgrove has returned from his outing.

August 25th is the date set by the Red Men for a trolley ride to Savin Rock, to be followed in the evening by a dinner.

Mr. and Mrs. William Stag, Harris street, are entertaining Mr. and Mrs. Brinsmade from St. Louis.

Something like 50 of our local residents went to Sawin Rock a few days ago for a shore dinner.

Mrs. George O. Lines has been visiting at Silver Sands.

Now and then a trolley runs over a dog in town. Sometimes the dog is killed, but more often no damage is done.

### FAIRFIELD

Recent Births—Dwight School—The Coming Fair—Baseball Notes—Personal Notes.

Mr. and Mrs. Theodore Sturges are receiving the congratulations of their friends on the birth of a son last Wednesday.

Mr. and Mrs. Eli Jennings of Houghton's Hill, are rejoicing over the birth of a son on the 8th inst.

The Dwight school house, Greenfield Hill, is in the hands of Mr. Clarence Nichols, who is having all the interior woodwork repainted and the ceilings will be kalsomined. The whole building is to be put in thorough repair for the coming school year.

The Onondaga club will give a supper this evening at the rooms of the club.

Miss Bentley, of Plainfield, N. J., who has been the guest of Mr. and Mrs. Forsythe for a fortnight, left today for her home.

There was a game of baseball on Thursday between the Fairfield and the Fairfield Ails, the latter winning, 8 to 8.

The grounds for the Firemen's Fair, which opens on Monday evening, have been enclosed and the platform for dancing has been laid. This sport can be enjoyed with the strains of Mills' orchestra. It is expected that the fair will be a success.

It is thought "straw" ride parties will be a feature of the week from Greenfield Hill, Greens Farms and Little Bridgeport. A new horse wagon is needed almost as much as a chemical engine, it having been in use for 22 years.

When purchased from Mr.

Pickett, Chief Moore and Chairman Seggell request all members to be on hand early Monday evening in uniform.

To-morrow there will be plenty of baseball in town. On McGarry's field the Rubber Shop team and the Old Fairfield play at 2 o'clock. The game will be interesting as the Rubber boys have not together a strong team and have been practising every day for the contest. The Old Fairfield will also line up a strong team. Reynolds, catcher; Smith, pitcher; Anderson, 1st base; and several first class fielders who have recently been signed by Manager Anderson. At 3:30 the Stars will play the Lincoln club of Bridgeport. They are going to spring a strong pitcher to-morrow, and will work hard for victory. McGarry is booked to pitch for the home team. On Buckley's field the Star Juniors play a team from Bridgeport. Bolton will pitch.

Mr. John F. Colgrove has returned from his outing.

IOWA SENATOR  
HAILED AS STANDARD  
BEARER IN 1912

SENATOR CUMMINS

FATHER GRENIER  
TO QUIT PARISH

Ill Health, Due to Worries  
of New Haven Pastor,  
Causes Resignation.

New Haven, Aug. 14.—After having been pastor of St. Louis' Canadian catholic church for nearly six years, Rev. Father J. A. N. Grenier, who has been in ill-health for some time, will leave the Canadian parish next Wednesday. His leave will be permanent. He will not return to this city, and affairs at St. Louis' church will be taken in charge by a Catholic order from Hartford composed of the Laxalt, ette fathers. The Laxalt, ette fathers will conduct matters at the Canadian church until the new bishop is installed at Hartford. A new pastor will then be chosen.

Although there had been a rumor that the pastor would leave, it was thought that he was going on a vacation for his health, and that he would return to St. Louis' church.

A horse belonging to a priest at this church a number of years ago was poisoned, ill-feeling being held responsible for that at the time.

Father Grenier's health is attributed partly to the faction against him and the church.

POINTS OF INTEREST.

The August Furniture Sale is still on at N. Buckingham & Co. 177 State street. Bargains in all grades of furniture. See adv.

The Woman's Drug Store.

It guards your health. Our Blood Tonic makes new blood for you, gives vitality to overcome the fatigue caused by the hot and changeable weather. We make it in our own laboratory, of the purest ingredients, the assimilable vitality to overcome the fatigue caused by the hot and changeable weather.

Recognized by thousands of his constituents as the leader of the progressive Republican faction in the Senate, Senator A. B. Cummins of Iowa is being hailed as the possible standard bearer of his party in 1912. When the Senator gave out his statement in Chicago practically throwing down the gauntlet to the high tariff forces he was reported as intimating that he would not be averse to accepting the nomination for President, although he expressed complete confidence in President Taft's willingness to carry out party pledges. He declared, however, that tariff would never again be a party issue and that every State and Congressional convention between now and the next Republican national convention would be asked to adopt tariff pledges and demands for tariff reduction.

### PRICES GOING UP

Everything We Eat and Wear Steadily Advancing, With the End Not in Sight

New York, Aug. 14.—The cost of living is steadily increasing. In the last thirteen years there has been an advance in the price of commodities of exactly 49.1 per cent. This includes not only breadstuffs but clothing, leather, dairy products—in fact, everything that enters to any appreciable extent into the demands of the householders.

During this summer there has been a gradual upward turn. The wholesaler is paying this month one-half of one per cent. more for various commodities than he did in July, and about the same increase has been made with each month since the end of spring. While the wholesaler has been paying more, the advance to the consumer has been progressing to an even greater extent.

Forty-eight articles used by the householder are higher this month than they were a year ago, and all of these articles are those of which the consumer buys the most, such as flour, eggs, pork, mutton, cheese, coffee, tea, and butter.

Bratt's Agency has been keeping track of the movement of prices for comparative purposes since 1892, the year before the big panic. In arriving at the average increase the agency takes the wholesale market prices of 106 different commodities, ranging from milk, bread, flour, and other articles used in the household, to leather, textiles, and building materials. The prices of these commodities per pound are added together, giving what is technically called the "index number"—or what it would cost to buy one pound of all of the 106 commodities. The agency has found that the "index" price was \$5.533, while this month it is \$5.593.

The significance of these figures to the householder is that while prices have been gradually going up in the wholesale market, the consumer has been obliged to pay, not only this increase, but in many instances considerably more. It is generally agreed that it is the consumer who, in the long run, has to bear the brunt.

Admitted to Probate.

Under the will of the late Rev. James H. O'Donnell, rector of St. Mary's parish, Norwalk, which was admitted to probate Tuesday afternoon, it is noted that Father O'Donnell died almost penniless after many years of faithful service for his church and people. He left an insurance policy of \$2,000 and a small deposit in a savings bank. His library he bequeathed to St. Thomas' seminary, Hartford. His small personal effects were divided among his many friends and relatives. His horse, wagon and full equipment were presented to St. Mary's church and the residue of his estate went to his sister, Mrs. Mary E. Hankinson, of New York City. He also left his \$1.00 insurance policy.

### THE THEATRES

JACKSON'S

With undisputed records of several months at the Casino and Majestic Theatres, New York and the Studebaker Theatre, Chicago, the fantastical musical comedy, "The Top O' Th' World" will be presented at Jackson's Theatre, on Friday evening next, and with it those real clever and unctuous boys, Bailey and Austin, whose specialties were in a very large measure responsible for its success, so much so that this season finds them as the "stars" of one of the largest musical attractions that is en tour and with a novelty as potent as was "The Wizard of Oz" some few seasons ago, which flashed the country with an avalanche of stage surprises.

Some seventy odd people comprise the organization which is divided into singing, dancing and acrobatic choruses, and the specialties. The book is by Mark E. Swan, with lyrics by James O'Dea and the music by Anna Caldwell and Manuel Klein of the New York Hippodrome. The story has to do with the discovery of the North Pole or "The Top O' Th' World" and is unfolded in four scenes. Assisting Bailey and Austin are Charles Harris, Walter Willis, Percy Walling, Francis Carrier, D. J. Flanagan, W. J. McMahon, Al. Grady, Florence Smith, Pearl, Ravant, Daisy Fuguet, Katherine Hutchinson, Will-Nell Lavender, Monnie Gordon and others. The sale of seats starts Tuesday morning.
